ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claimed invention is distinguished over the prior art of record in that the prior art does not teach a method of handling a extreme ultraviolet reflective mask such that the mask is self-aligning in a horizontal direction, the holding comprising cooperation between a first set of *connecting structures on the mask* and a respective second set of connecting structures on the gripper such that a contact area between the mask and the gripper is minimized.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
